Dear Mr. Field:

In response to Mr. Rushford's letter of 13 November 1975, we are transmitting the following materials, all relating to SALT and Soviet strategic weapons. (See attached list of items).

These documents have been minimally sanitized to delete information on the status and capabilities of sensitive collection systems. All documents maintain their original classifications, and are transmitted under the terms of the 29 September agreement between Director Colby and Chairman Pike.

Sincerely,
